

Block of the Month for June, 2014

Stashaholic's Dream Patch

For each block you will need:

- 1 4-1/2" square in a smallish print for the center of the block
- 4 2-1/2" x 4-1/2" rectangles in a blender or small print that brings out a color from your center square
- 4 2-1/2" squares in a blender or print that brings out a different color from your center square

HINT: Your rectangles and 2-1/2" squares should contrast with each other, so if you choose a lighter color for your rectangles, choose a darker color for the squares.

Assemble the block:

1. Using 2 of the 2-1/2" x 4-1/2" rectangles, sew one on each of two opposite sides of your center 4-1/2" square. Press the seams toward the center square.
2. Sew a 2-1/2" square to each narrow end of the remaining 2 rectangles. Press the seams toward the small squares.
3. Matching seams, sew the square-rectangle-square pieces to opposite sides of the center rectangle-large square-rectangle piece. Press seams toward the outside.
4. Your Stashaholic's Dream Patch is finished! You may submit up to five blocks, and you will receive one chance to win for each one you turn in.
